

ORDERING THROUGH YOUR EMR SYSTEM

e-Scribing Benefits

By e-scribing through your existing Electronic Medical Record (EMR) system, your prescriptions will be sent directly to our pharmacy for processing which may expedite turnaround time.

INSTRUCTIONS

Please follow the steps below to properly start utilizing your EMR system.

1 Locate the pharmacy

You can find the ImprimisRx pharmacy in your EMR system as identified below (choose one):

ImprimisRx NJ, LLC

1705 Route 46, Suite 6A
Ledgewood, NJ 07852
866-792-7328

ImprimisRx CA

(if you reside in CA or VA)
9257 Research Drive Irvine, CA 92618
844-446-6979

2 Complete the information

Once the pharmacy is chosen, please complete the following information:

- Prescriber information
- Patient information (name, phone number, address and date of birth)
- Prescription information (medication name, quantity, and refills)

NOTE: Some EMR systems will allow for custom formulations to be added, but most will not. Please find the closest identified medication for your patients' needs.

Example:

- *Search Moxifloxacin NDC: 00065-4013 as a substitute for our Pred-Gati-Nepaf formulation*

ORDERING THROUGH YOUR EMR SYSTEM

3 Provide Instructions

Please indicate dosing instructions—how the formulation will be administered, volume to be used, and how often the drops are to be applied.

LATANOPROST
(latanoprost) 0.005%
Instill 1 drop by ophthalmic route every day
into both eyes in the evening

4 Include Doctor Notes

As a compounding pharmacy, this will be required to determine proper medication and information to process. Please include the following required information in the notes.

- Surgery date, date to be administered or need by date
- Patient allergies
- Imprimis formulation name such as “Pred-Gati-Nepaf” or “Tim-Brim-Dor”. This is needed if unable to add formulation to EMR
- Where to ship and bill the formulation (Patient or Facility)

Final Step: We will take it from here.
